

sceye® is an innovative document scanner for the professional desktop. Capture your documents instantly even while you are reading them!

Place your document into the laser projection area on your desktop and sceye will take a snapshot, straighten and auto-crop the image to the actual document size - all in one take - no mouse or keyboard action required!

With sceye even small receipts, stapled pages or pages directly from a folder or binder can be captured.

With it's extra ordinary design sceyeX is ideal for your desktop with its sleek design and very small footprint. Powered by USB - sceye is also the perfect choice for any mobile office.

The bundled software offers sophisticated image processing functions, such as deskew, auto-cropping and image processing, therefore eliminating the need to make further manual correction to the scanned image.

sceye® is

- **Easy**
- **Flexible**
- **Fast**
- **Comfortable**
- **Maintenance free**

Kodak

sceye comes bundled with :

sceye-Explorer - Scanning and organizing documents with multiple pages

sceye-Autoscan - Batch scanning for any kind of document or even right from the folder

sceye-RACE - Insert single pages by a shortcut in popular applications

ExactScan Pro - (For Mac only) Direct access to the document scanner via a native Mac twain driver. The scanned images can be stored as a searchable PDF instantly.

sceye comes in two differnt versions:

sceyeX - designed for a full automatic capture process for a high number of documents and with outstanding image quality

sceyeX Mono-Pro - „the specialist camera" Without a color mode but with an extra boost on image sharpness and clarity

The standardised TWAIN-Interface allows any compatible application to integrate sceye as any normal scanner to capture documents.

sceye is maintenance free, and comes with a 3 years warranty*
