Smart Hospitality Display HBU8000 Series

43 50 55 65 75

HIGHLIGHTS

- Quick access to leading streaming services
- Enhance content with 4K UHD Crystal Display for perfect picture quality
- Slim design that complements any interior while saving space
- Centralized management of hotel displays worldwide
- Optimize promotions and offers using personalized guest insights

Key features

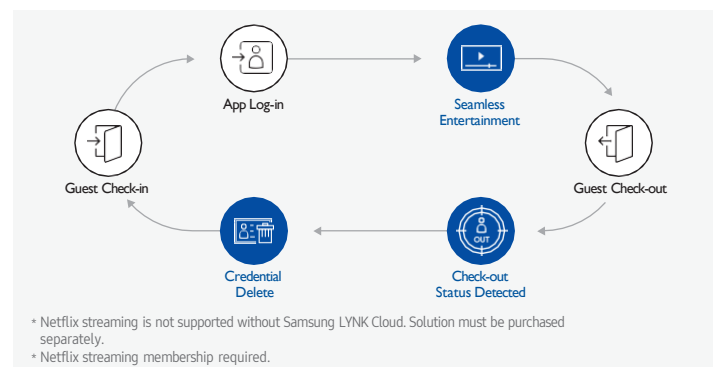

Let your guests access their most loved content

Modern guests are seeking the same home amenities and comforts while choosing their next hotel. To deliver a personalized touch during guest trips, hotels are adapting new technologies to win new customers. Samsung, the industry-leading TV brand, delivers the comforts of home with the new HBU8000 series hospitality display. Featuring access to the most popular streaming services, including Netflix, in beautiful UHD quality, guests are treated to the same conveniences of their living room while traveling worldwide.

An instantly familiar UI for faster navigation

Upon turning on their room TV, guests are treated to a recognizable UI filled with the most popular entertainment applications such as Netflix and YouTube. Guests can sign-in to dive back into the latest show they're bingeing or find new suggestions through their apps.

Safe credentials management with LYNK Cloud

Guests credentials are safely saved for the duration of their trip, allowing them quick access anytime they're in their rooms. Upon checking out, credentials are wiped from the system using Samsung LYNKCloud and the hotel's Property Management System, giving users added peace of mind.

Key features

Lifelike color, in its purest state with fine crystal

Elevate your hotel's entertainment experiences with Dynamic Crystal Color. With a billion shades of color, every subtlety can be seen from the comfort of the hotel room.

Sleek and slim, more than ever

Increase flexibility with ultra-slim design, enabling hotel operators to create optimized room layouts that increase guest comfort.

Hospitality Solution

LYNK Cloud

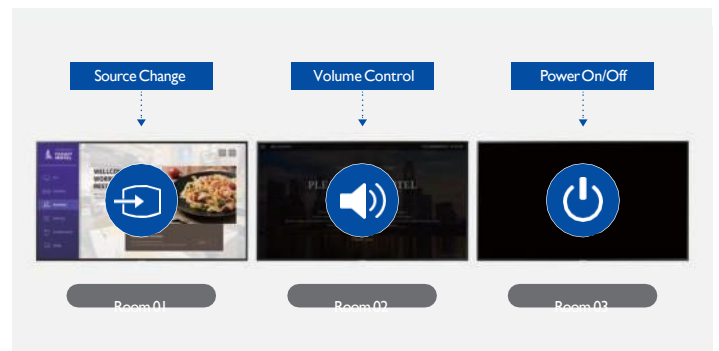

Streamlined property management

With online access that supports multiple users, Samsung LYNK Cloud is ideal for global hospitality operations with centralized management, giving users control of their hotel displays worldwide.

* LYNK Cloud License must be purchased separately.

* LYNK Cloud does not support management of properties within China.

Integrated device management

Quickly update in-room TVs from a centralized source with Samsung LYNK Cloud. Managers can modify channel maps and program guides and control basic functions, making it easier than ever to provide support and maintenance.

* Some features may not be compatible with hotel's current platforms.

Content creation and custom interactions

Curate your hotel's in-room experience with LYNK Cloud. Create and remotely deploy web-based content to each in-room TV for a tailored feel to your property. With interactive requests support, you can provide the easiest way for guests to make room service orders and book spa appointments.

* Some features may not be compatible with hotel's current platforms.

Data-driven promotional planning

Samsung LYNK Cloud enables optimized promotional content delivery based on integrated guest data available through the hotel PMS, helping managers to uncover business insights.
